IRIS. Fleur-de-Lis

JAPANESE IRIS

(Iris Kaempferi)

A FEW years since, we began importing this beautiful class of plants from Japan, and the demand is yearly increasing as their beauty and value becomes better known. No place, however small, is now complete without a collection. They are most effective when planted in groups, and thrive best in a moist soil. The flowers are of immense size, from six to eight inches in diameter, and of the most beautiful and delicate shades. They are perfectly hardy, flowering in great profusion during June and July. We offer the following list of named sorts:

Azuma Yuki, No. 81. Petals rosy purple with heavy white veins, standards brownish-red, striped with white, yellow star center.

Banrai Nami, No. 1. Petals pale pinkish white with white standards and yellow center.

Furomon, No. 28. Petals bright pink, shading to creamy white, with heavy purple veins, standards purple, yellow center.

Gosetsu No Mai, No. 12. Petals light blue, yellow star center, with dark bluish purple standards.

Kimino-Medmui, No. 97. Soft lilac, with dark purple veins, and purple standards.

Krishi-Ikari, No. 85. Petals brownish-red with light brown veins, center yellow, standards scarlet, striped with white.

Kyo-Dai-Yama, No. 59. Petals indigo, standards greenish blue, striped with white.

Okino-Kamone, No. 65. Petals recurved and creamy white, standards pure white.

Sassa No Koe, No. 34. Petals recurved and creamy white, veined pink and white, orange center, standards pure white, spotted deep pink.

Shiraito-Daki, No. 100. Petals creamy white with bluish tinge, finely veined, center yellow, standards white with deep blue edges.

Yezo-Nishiki, No. 16. Petals lavender, heavily spotted with dark purple, center yellow, standard lavender, bordered with purple.

Yodo No Kuruma, No. 8. Petals bright pink, shading to dark pink at center and heavily veined, standards purple, marbled with white.

Above named varieties, each 30c; per dozen, \$3.00. By mail, each, 35c; per dozen, \$3.50.

Finest Mixed (Our selection), each, 20c; per dozen, \$2.00. By mail, each 25c; per dozen, \$2.50.

We can furnish large clumps of most of the above varieties from \$1.00 to \$1.50 each.

SIBERIAN IRIS

(Iris Siberica)

Of slender growth, with narrow grass-like foliage and tall stems.

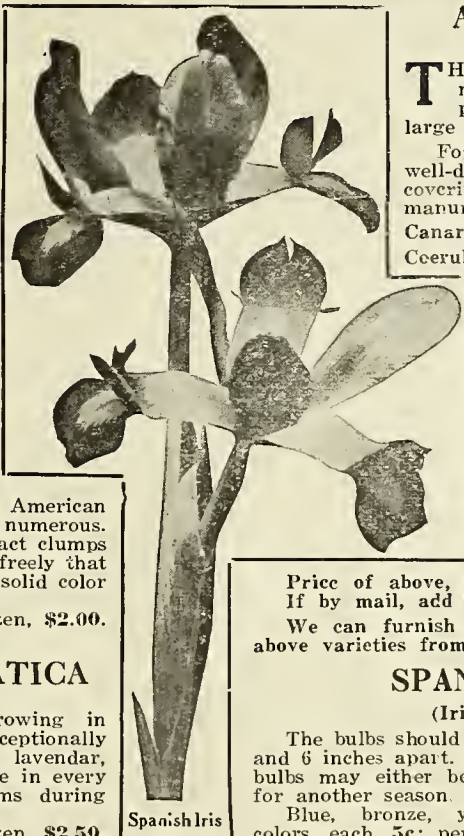

Flowers similar to those of the American Iris, but smaller and much more numerous. The plants form large, strong, compact clumps and bloom during May and June so freely that the deep blue flowers give almost a solid color effect.

Each, 20c; per dozen, \$2.00.

IRIS PALLIDA DALMATICA

Of strong, vigorous habit, growing in good soil 4 feet high, with exceptionally large, fragrant flowers, standards lavender, falls lavender, shaded blue; exquisite in every way and fine for massing. Blooms during May and June.

Each, 25c; per dozen, \$2.50.

AMERICAN IRIS

(Flag Iris)

THE American Iris is one of the most desirable May flowering plants. The flowers are of large size and of exquisite colors.

For the best results plant in well-drained sunny position, barely covering the roots. Avoid fresh manure in preparing your border. Canary Bird. Light yellow or buff. Coerulea. Sky blue.

Florentina Alba. White.
 Florentina Coerulea. Blue, very fine.
 King of Yellows. Yellow.
 L'Inccence. White veined with orange purple.
 Mme. Chereau. Pure white, border of blue.
 Mont Blanc. Pure white.
 Purpurascens. Dark purple.
 Queen Victoria. Blue, changing to bluish white.
 Thorbecke. White and deep violet.

Price of above, each, 20c; per dozen, \$2.00. If by mail, add 5c each, 50c per dozen.

We can furnish large clumps of most of the above varieties from 50c to \$1.00 each.

SPANISH IRIS

(Iris Hispanica)

The bulbs should be planted 2 to 3 inches deep and 6 inches apart. They flower in June, and the bulbs may either be lifted or allowed to remain for another season.

Blue, bronze, yellow and white; separate colors, each, 5c; per dozen, 50c; per 100, \$3.00.

PAEONIES

DOUBLE HERBACEOUS PAEONIES

MAGNIFICENT, hardy plants, almost rivaling the rose in perfume, brilliancy, color and perfection of bloom. They are perfectly hardy, require little or no care, and produce larger or finer blooms when well established.

All our Paeony roots are furnished in divisions of from three to five eyes.

Dorchester. A most beautiful, soft pink of fine form, dwarf growerEach, 35c
Duc de Wellington. Large bomb, white guards, sulphur center; fragrantEach, 40c
Edulis Superba. Bright, mauve pink color mixed with lilac; fragrantEach, 25c
Felix Crousse. Large, double, ball-shaped bloom; color brilliant red.....Each, 50c
Festiva Maxima. White, with carmine tipped flakes to a few center petalsEach, 40c
Floral Treasure. Large, full, clear pink, with lighter centerEach, 40c
Hamlet. Color very dark red.....Each, 25c
Jeanne D'Arc. Outside petals rose colored, inside straw colored, with crimson spots.....Each, 60c
Livingstone. Rosy pink, silvery reflex...Each, 75c
Louis Van Houtte. Deep carmine-rose, tipped silver with a brilliant fiery reflex.....Each, 30c
Mme. Calot. Large, pale hydrangea-pink, with darker shadings in the centerEach, 40c
Madame Boulanger. Color glossy, tender rose, shading to heliotrope, bordered with silvery flesh. Each40c

Mathilde de Roseneck. Late, soft flesh-pink, shading deeper toward the center with tintings of lilac and chamois; petals bordered with silver and occasional narrow edgings of bright carmine... Each, 50c
Marie Lemoine. Large, sulphur white, shaded with pink; magnificentEach, 40c
Meissionier. Broad outer petals, brilliant purple amaranth, inner petals crimson, free bloomer. Each35c
Purpurea Superba. Large purplish-crimson, large guardsEach, 30c
Queen Victoria. Large, full compact bloom, opening flesh, changing to white, center petals tipped with carmineEach, 30c
Rosa Magna. Beautiful, large, rose-colored Paeony. Very free.Each, 25c
Thorbeckii. Deep red pink, of fine form, lighter in center. Medium dwarf.Each, 35c
Tricolor Rosea. Dark violet rose; large globular flowerEach, 40c

MCCULLOUGH'S PAEONY COLLECTION.

One each of the above twenty named varieties for \$7.00, purchaser paying express charges. If to be sent by mail, add 5c each, 50c per dozen.

PAEONIES IN MIXTURE. They are from our named varieties. We keep the colors separate and offer them to color as follows: white, red and pink in mixture. Each, 25c; per dozen.....\$2.50

We can supply large clumps of these varieties of Peonies from \$1.00 to \$1.50 each.

Paeonia Officinalis

THIS type is the real old-fashioned "Paeony," and comes into bloom from ten days to two weeks ahead of the named sorts. All are strong growers, with large, full, double, fragrant flowers.

Alba. Blush-white. Rosea. Rose. Rubra. Crimson. Each, 25c; per dozen.....\$2.50

Paeonies—Japanese Single

The single Paeonies are even more beautiful than the double. They are larger in size of flowers and more delicate in coloring. No other plant flowering at the same season can vie with the Single Paeony. We offer the following colors: Carmine, Crimson, Magenta, Maroon, Purple and Rose. Each, 30c; per dozen.....\$3.00

CULTURE OF THE PAEONY

THE Paeony delights in a deep, rich soil and a sunny location, however, they will sometimes prove satisfactory in partial shade. The beds should be dug at least two feet deep and filled with good, rich soil and the roots set four feet apart each way. Cover the eyes not over two inches with soil as deep planting prevents free blooming. No manure of any kind should be incorporated in the soil but after the roots are set out manure may be placed in the middle of the rows but should not be allowed to come in contact with the plant as there is danger of the plant rotting when this is done. The roots should only be set out in the Fall. August and September are the most desirable months for this purpose. In setting the roots care should be taken to see that the soil is well packed up against the bottom of the root as it is essential that the soil be brought into close contact with every portion of the root. Do not cover the bed with any kind of litter until the ground is frozen, the litter being intended to prevent thawing and freezing of the ground, which has a tendency to lift the roots. The litter may be removed in early spring and the plants should be kept well watered while growing. Liquid manure may be applied with satisfactory results. Roots planted in the fall according to these instructions will be almost certain to bloom next season.

(Over)

ROSEN RYE.

The development of **ROSEN RYE** has been of high character because the growers have taken particular pains, to prevent cross fertilization and mixing with other grains.

ROSEN RYE produces a strong vigorous straw and stools to a remarkable degree. The grain is large, plump, heavy and beautiful color, commanding a premium on the market over common grain owing to its vigorous stooling property, less seed is required, three to four pecks per acre proving sufficient.

The supply of Seed is limited, consequently we urge immediate ordering before stock is exhausted,

Hope to have a trial order

The J. M. McCullough's Sons Co.

H. B. McCULLOUGH, President.
